Indoor Shoes

Now the weather is getting better we have been enjoying lots of free flow play with the door open to the garden. To make this more accessible for the children we have decided they do not need to wear slippers inside the classroom. We ask that they have shoes suitable for indoor and garden play. During wet weather we will still wear boots outside.

The children have been very busy over the last month learning all about the people who help us. So far we have learnt how Doctors look after people when they are hurt or ill and how they make us feel better. We have also learnt how to look after our teeth by eating well, brushing them twice a day and visiting the Dentist regularly.

The children have loved changing the role play area into a hospital and Dentist. They have really let their imaginations run wild and it has been so lovely to observe. The children are always looking after each other and often comfort their friends when needed. This has been a great learning experience for them and we can't wait to see what is next.
