

Little EIFA

The children have recently enjoyed lots of mathematics. We have been counting throughout our activities, found lots of different shapes in our classroom and have focussed on number recognition during a painting activity.

Dans le cadre de la célébration du nouvel an Lunaire, les enfants ont préparé du riz cantonais durant l'activité cuisine. Ils ont mélangé du riz, du maïs, des petits pois et une sauce aigre douce avant de déguster le tout.

We have also transformed our role play area into a Chinese restaurant while we learn more about the celebration of Lunar New Year. The children are enjoying the pretending to work in a restaurant and cooking for their friends.

Staff Changes

It saddens me to say that this week we say Goodbye to Brooke. Brooke is leaving us to take some time off travelling with friends before gaining more experience working with older children within primary schools in London. We have been very lucky to have Brooke work with us over the last few months and will miss her greatly.

This week Ololade will be starting with us in Little EIFA. Ololade joins us with many years experience working within early years in London and also has a Ba Hons in Early Childhood Studies. We look forward to welcoming her to our team.

Lunar New Year

We are inviting the children to wear something red for our Lunar New Year celebrations on Wednesday 7 February.
